DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 28 February 2005 has been entered.

Allowable Subject Matter

2. Claims 1 – 19 are allowed over the prior art of record.

3. The following is an Examiner's statement of reasons for allowance: Eklund substantially discloses the claimed invention. However, Eklund does not disclose, teach or suggests patterning the semiconductor film before implanting *any* dopant to be implanted into the gate electrode. Eklund implants the regions of the semiconductor film before patterning the semiconductor film into the gate electrodes.

Yoshida et al. U. S. Patent 5,620,922 A; figures 1 – 26 and related text, substantially discloses the claimed invention, however, Yoshida does not disclose, "implanting a dopant into a first region of the semiconductor film where a resistance element is to be formed, a second region of the semiconductor film where a gate electrode is to be formed being not implanted with

the dopant.” Yoshida only blanket implants the entire region after forming the gate electrodes and the resistance element.

Eklund and Yoshida cannot be combined, since modifying either reference with the other will teach away one from the other. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
